

# NOT SURE WHETHER YOU LIKE IT

Baby Emmanuel,

I'm not sure whether you have noticed that I created "persistence of memory" in MyBabyCat project, there I put the e-gift created for your birthday in 2016, 2018 and a few other memories there last night and today I removed them.

Today you were offline for a very long time. I'm not sure it's coincidence or because you don't like what I did last night. When I re-opened them, no longer wanted to smile but felt more uncomfortable.

Maybe your offline was coincidence. Today I was wondering whether you were on vacation, or having a business trip, or quit the job or there are other reasons. I guess coincidence has a higher chance. Removing them made me feel better, cuz no need to think whether you will like them there.

I love you. I want to go back and have a future with you, instead of drowning into the memories.
